

VisionTrack Returns Policy

A. Returns during the Warranty period

Despite our best efforts and our robust quality control processes, occasionally things go wrong, and our products develop a fault. If this happens during your Warranty period VisionTrack offers you the following options:

I. Repair/Replace

This process requires you to call our technical support team on [the number below](#). During the call our technicians will attempt to resolve the issue or fault. If the fault cannot be resolved during the call, we will issue you with a Returns Authorisation Form. Non-business customers may also elect to reject the products within 30 days of the date of delivery.

Please return the goods to the below address at your cost ensuring that you enclose the Returns Authorisation Form. We will notify you once we have received your returned goods. We aim to repair/replace faulty products within 3 to 5 working days of receipt.

II. Advance Replacement (Direct Customers only)

If we agree to send you an advance replacement and you fail to return the faulty Product to us within 30 days of the advance replacement being dispatched, you will be liable to pay us a non-return fee equal to the sale price of the Product. as specified in our standard Product pricelist.

2. Payment on account: If you have a credit account with us, we can process the new goods on the credit account. You will need to return the faulty goods with the Returns Authorisation Form, once we have received this, we will credit the payment back to a credit or debit card, or your bank.
